Summary

Final-year MBA-Tech (Finance Major, Analytics & BI Minor) student at NMIMS with experience in Business Analytics, KPI dashboarding, workflow automation, and data-driven decision-making. Built predictive models with 87.7% accuracy on 8,000+ observations, identified customer segments contributing 44.5% of revenue, and delivered automation reducing manual effort by 60%. Skilled in Power BI, Tableau, IBM SPSS, and Python; targeting Management Internship roles in Business Analytics, Strategy, Product Analytics, and Business Intelligence.

Education

NMIMS, School of Technology, Management and Engineering	2022 – 2027
MBA-Tech in Computer Engineering (Major: Finance; Minor: Analytics & Business Intelligence)	CGPA: 7.05/10

Experience

Triassic Solutions Pvt Ltd	May 2025 – Jul 2025
Product & Operations Intern	Kochi, India
- Partnered with resort-operations stakeholders to digitize invoicing, booking, and reporting workflows, reducing manual administrative effort by 60%. - Designed analytics dashboards surfacing occupancy, revenue, and booking KPIs to support management decision-making. - Led requirement gathering and process mapping initiatives while delivering an MVP solution to streamline resort operations.	
Intrys	May 2024 – Jul 2024
IT Infrastructure Intern	Kochi, India
- Configured site-to-site VPN and firewall systems while supporting Hyper-V deployment and virtualization operations. - Supported migration and infrastructure management for 10+ virtual machines across Hyper-V and VMware environments.	

Projects

From Engagement to Revenue – Social Media Analytics IBM SPSS, Power BI, Tableau, Python	Jan 2026 – Apr 2026
- Performed end-to-end statistical analysis in IBM SPSS on 8,000+ customer observations across 5 digital channels. - Built a logistic regression model achieving 87.7% accuracy and identified customer segments driving 44.5% of revenue via K-means clustering. - Designed interactive Power BI and Tableau dashboards visualizing ROI, conversion funnels, and segment KPIs to support marketing-spend decisions.	
BlockERP – Blockchain ERP for Indian SMEs Solidity, React, Hardhat	Jan 2026 – Apr 2026
- IEEE conference paper accepted for designing blockchain-based financial controls addressing GST compliance and audit-trail gaps for Indian SMEs. - Built and deployed blockchain ERP architecture across 6 EVM networks supporting secure SME financial record management.	
Customer Churn Prediction System Python, Tableau	Jan 2025 – Apr 2025
Developed a churn prediction system and visualized customer risk segments through Tableau dashboards to support retention strategies.	

Leadership & Activities

E-Cell, NMIMS STME	May 2025 – Present
Marketing Head	Navi Mumbai, India
Secured 3+ industry partnerships and tracked growth through KPI/ROI dashboards while leading end-to-end marketing initiatives.	
IEEE Student Chapter, NMIMS STME	Jul 2024 – Mar 2025
Marketing Co-Head	Navi Mumbai, India
Expanded chapter visibility to 500+ students and onboarded first-time paying sponsors through post-event ROI analytics.	

Technical Skills & Certifications

BI & Analytics: Power BI, Tableau, IBM SPSS, Excel, KPI Dashboards, Statistical Modeling
Data & ML: Python (Pandas, NumPy, scikit-learn), Logistic Regression, K-Means, Customer Segmentation, Churn Prediction
Business: Business Analysis, Stakeholder Management, Process Improvement, Agile/SDLC, Data-driven Decision Making
Tools: Git, AWS, VMware, Hyper-V, Flutter, React
Certifications: Lean Six Sigma Green Belt, AWS Cloud Architecting, Fortinet Network Security
